

The most stringent design requirements between the applicable building codes and standards within this appendix shall be used.

San Houston State University uses as a basis of design the requirements of all applicable building fire, zoning, accessibility standards and labor codes and industry standard manuals of practice, including but not limited to the following:

- **The Texas Engineering Practice Act and the Texas Board of Professional Engineers**

statutes and regulations

. Where an applicable code, statute or regulation addresses the requirements set forth in these standards, the most stringent requirement shall be included in the construction documents. If any requirement of these standards is deemed to be in conflict with applicable codes, statutes, regulations or other SFSU standards, immediately notify in writing SFSU project representative

Nothing in these standards is intended to be specific to the conditions of any particular project. It is the design professional's responsibility and liability to determine that the specific project requirements have
