

Biosafety Level One/Two (BSL-1/2) Inspection Checklist

SHSU's research & teaching laboratories that work with biohazards are required to have annual inspections using this checklist. Laboratory personnel should use this checklist to identify safety and regulatory deficiencies to address them prior to the annual inspection. After each inspection, laboratories will have thirty days to correct deficiencies. If a single laboratory is hosting multiple research projects, each must have their own inspection.

8. Gloves are removed and hands washed prior to exiting the laboratory.			BMBL CDC: BSL-1 A7b p. 34; BSL-2 A7b p. 38; 29 CFR1910.132
9. Gloves are changed when contaminated, damaged, or when otherwise necessary.			BMBL CDC: BSL-1 A7c p. 34; BSL-2 A7c p.38; CFR1910.132
10. Disposable gloves are not reused. Contaminated gloves are properly disposed.			BMBL CDC: BSL-1 A7d p. 34; BSL- 2 A7d p. 38; 29 CFR1910.132

11.

SYNTHETIC NUCLEIC ACID MOLECULES, AND TOXINS

Applicable to BSL-1 & BSL-2

Yes

No
