

ADVANCED SEARCH

Advanced Search

Students do not have the Advanced Search option. Be sure to toggle to Staff or Professor Homepage to view full left-hand menu.

The image shows a screenshot of a web application interface for Saint Louis State University. The interface includes a top navigation bar with the university name, a search bar, and a 'Quick Search' button. Below the navigation bar, there is a 'New Search' section with a 'Saved Searches' dropdown, a 'Keywords (First Name, Last Name, E-mail, Student ID)?' input field, and a 'Type?' dropdown menu currently set to 'Students'. The main content area is divided into several sections, including 'Student Information', 'Enrollment Lists', and 'Performance Data'. The interface is annotated with several elements: a green arrow pointing to a home icon, a yellow arrow pointing to a search icon, a blue arrow pointing to a search icon, and a purple arrow pointing to a search icon. A text box with the text 'arrows to expand the drawer' is positioned in the center. A text box with the text 'Use the gray text to' is positioned in the lower right. A text box with the text 'contained in each draw' is positioned in the bottom right. A text box with the text 'determine what filters are' is positioned in the lower left. A text box with the text 'ver.' is positioned in the bottom left. A 'Search' button is located at the bottom right of the page.

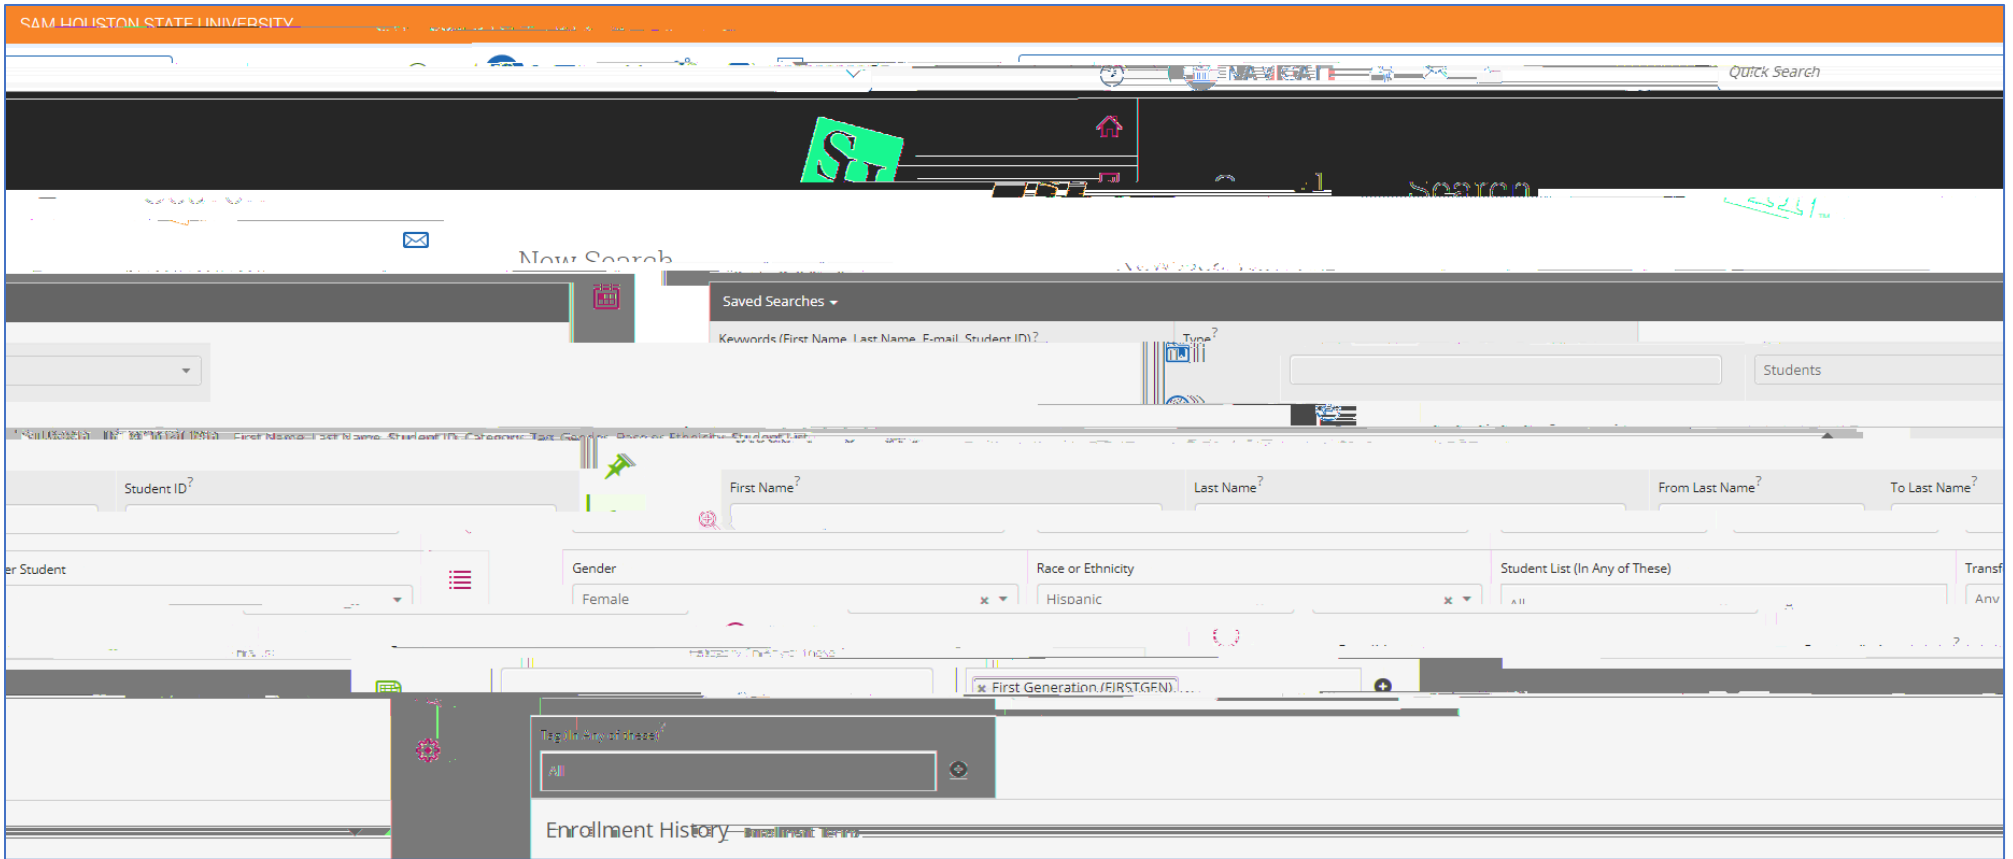

arrows to expand the drawer

Use the gray text to

contained in each draw

ver.

determine what filters are

(Ex. Female, Hispanic students who are also First-Generation students)

Only the first 100 results are selected to
select all items, click the [blue text](#) to select all.

Student Lists are static and will not change even if student information changes. Saved Searches are dynamic and change as students fall in and out of the search criteria.
