The simple shape represents a water droplet or the flicker of a flame. When duplicated, the droplet becomes a lotus flower bud symbolizing long life and purity, while growth is demonstrated by the progression from small to large. The final mark demonstrates the connection of organic and inorganic, moving beyond natural, suggesting science, digital and data. These are all direct representations of our mission.

C. A. A.

The Alaska Department of Education and Early Childhood Development (DEED) is pleased to announce that the Alaska Statewide Assessment (ASA) will be administered in the fall of 2014. The ASA is a computer-based assessment that measures student achievement in reading, mathematics, and science. The ASA is required for all students in grades 3 through 8. The ASA is a computer-based assessment that measures student achievement in reading, mathematics, and science. The ASA is required for all students in grades 3 through 8. The ASA is a computer-based assessment that measures student achievement in reading, mathematics, and science. The ASA is required for all students in grades 3 through 8.
